

I wish for station KLOVE to remain on the air because it provides positive messages in a time when the radio is not fit to listen to. It is a station I can feel comfortable letting my children listen to. If KLOVE is replaced by other FM programming, we may lose this. KLOVE serves the public interest by providing a safe place for families. The family is under attack today by radio, TV and movies. KLOVE has good clean messages free of sex, adult humor and themes and inappropriate song lyrics. Please keep KLOVE on the air so that our children don't have to be exposed to trash.
